MEDICAL LIBRARY ASSOCIATION ANNUAL MEETING
Why is ORCiD important to our institution?

“Having an efficient way to disambiguate researcher names and publications will facilitate accurate tracking of our publications and collaborations which are significant metrics essential to our goal of achieving and maintaining “designation” status by the National Cancer Institute.”

Dr. Samir N. Khleif
Director, GRU Cancer Center
Becoming Involved with ORCID

ORCID outreach activities are supported by a diverse cadre of energetic institutional and individual Ambassadors who encourage the adoption of ORCID identifiers locally and globally. ORCID Ambassadors hail from over twenty countries and include organizations, researchers, faculty and university administration, librarians, funders, and association and publishing professionals.

ORCID Ambassadors actively listen to the research and scholarly community. ORCID provides resources and information to support their outreach efforts, such as:

- Organizing and leading ORCID presentations at conferences and at their own institutions
- Creating buzz by posting ORCID information on Twitter, Facebook, LinkedIn, and other social media sites
- Posting flyers and sharing information on listservs
- Displaying their ORCID IDs in their email signature, CV, and Web site
- Educating friends and colleagues about ORCID through informal conversations
- Providing ORCID and other Ambassadors with community feedback
- Encouraging their organization or nation to become a member and embed ORCID identifiers in research workflows
- Sharing information about their institution’s ORCID integration with the community

Assistant Professor

ORCID is an internationally recognized researcher identifier expressed as a 16-digit number that aids in distinguishing you from every other researcher. The standardized number also serves as a link to your personally maintained profile that can be linked with other systems such as Scopus, SciVal, or ResearcherID.

If you do not have an ORCID ID, you may complete the registration process at https://orcid.org/register.

For more information on ORCID please contact the Greenblatt Library at 706-721-8789

Research Information Architect: Building Research Information Infrastructure through ORCID Integration in University Systems

AUTHORS:
Mears, Kimberly (0000-0001-6461-9054) ; Bandy, Sandra (0000-0002-1243-8670) ; Seago, Brenda (0000-0001-9605-2056)

ABSTRACT:
ORCID iDs (Open Researcher and Contributor ID) provide authors with an international digital identifier to aid in maintaining a professional record of scholarly activities. The University Libraries sought to enhance the University’s information infrastructure through the integration of ORCID identifiers in key systems, including the institution’s digital repository, Scholarly Commons, and the PeopleSoft Human Resources Management System (HRMS).
