EDITORIAL

MOST EMPHATICALLY YOUR INTEREST IN GOVERNMENT DOES NOT CEASE WHEN YOU HAVE FULFILLED YOUR VOTING OBLIGATION AND PAID YOUR TAXES. YOU HAVE A NATURAL INTEREST IN THE ACTIONS OF YOUR ELECTED OFFICIALS AND THE MANNER IN WHICH THEY COMMIT YOUR LEGISLATED TAX CONTRIBUTION.

IT IS SUBMITTED, LIKEWISE, THAT INTEREST IN EDUCATION CANNOT END WITH GRADUATION FROM SCHOOL, BECAUSE THE QUALITY AND DIMENSION OF EDUCATION ARE OF VITAL CONCERN TO EVERYONE.

THE GROWTH AND DEVELOPMENT OF EDUCATION ARE DEPENDENT ON A REALISTIC LEGISLATED APPROPRIATION, AND ON VOLUNTARY ENDOWMENTS. APPROPRIATIONS TO STATE-AIDED INSTITUTIONS SUCH AS THE MEDICAL COLLEGE OF GEORGIA MEET THE NEED FOR BUDGETED COSTS. ON THE OTHER HAND, ENDOWMENTS PERMIT A NECESSARY FLEXIBILITY WHICH AN ESTABLISHED BUDGET CANNOT ALLOW.

BECAUSE MEDICAL EDUCATION MUST REMAIN FLEXIBLE, ENDOWMENTS AND VOLUNTARY GIFTS ARE AN IMPORTANT SOURCE OF SUPPLEMENTAL SUPPORT. BY SERVING AS A SECONDARY SOURCE OF FUNDS FOR THE SCHOOL, THE MEDICAL COLLEGE OF GEORGIA FOUNDATION IS MAKING A VALUED CONTRIBUTION TO HEALTH EDUCATION. IN BEHALF OF THE SCHOOL, THE FOUNDATION EARNESTLY SOLICITS YOUR SUPPORT. WE HOPE YOU WILL MAKE GOOD USE OF THE CONVENIENT POSTAGE PAID ENVELOPE TO BE FOUND ELSEWHERE IN THIS ISSUE.

NEW MEDICAL LIBRARY NEARS FORMAL OPENING

BOOKS BY THE THOUSANDS ARE BEING TRANSFERRED FROM THE OLD STACKS IN THE ADMINISTRATION BUILDING TO THEIR ELEGANT NEW HOME IN THE COLLEGE'S NEW MEDICAL LIBRARY.

UNDER THE SUPERVISION OF MISS SADIE RAINSFORD, COLLEGE LIBRARIAN, AND THE LIBRARY COMMITTEE, THE TASK IS EXPECTED TO BE COMPLETED BY LATE JUNE. THE COMMITTEE IS COMPOSED OF DR. FLOYD E. BLIVEN, JR., CHAIRMAN, MISS RAINSFORD, DR. FRANK P. ANDERSON, DR. PHILIP DOW, DR. W. KNOWLTON HALL, AND MISS JEAN LAYTON.

FOR THOSE ALUMNI WHO WILL NOT HAVE BEEN FORTUNATE ENOUGH TO SEE THE NEW FACILITY FIRST HAND, THE NEXT ISSUE OF THE FOUNDATION AND ALUMNI NEWS (SEPTEMBER, 1963) WILL DEVOTE SEVERAL PAGES TO A PHOTOGRAPHIC TOUR OF THE LIBRARY. THERE WILL BE PICTURES OF THE STACK AND STUDY AREAS, THE INFORMAL READING ROOM, THE RARE BOOKS ROOM, AND OTHER SCENES.

MR. GREENE

MCG APPOINTS REGISTRAR

THE MEDICAL COLLEGE OF GEORGIA HAS APPOINTED GEORGE ROBERT GREENE AS REGISTRAR, EFFECTIVE MAY 14, 1963.

AS REGISTRAR, MR. GREENE WILL PROCESS APPLICATIONS TO THE SCHOOLS OF MEDICINE AND NURSING, AND WILL SERVE AS CUSTODIAN OF STUDENT RECORDS. HE ALSO WILL PARTICIPATE IN STUDIES CONCERNING ADMISSIONS TO THE COLLEGE'S PARAMEDICAL PROGRAMS IN GRADUATE STUDIES, MEDICAL TECHNOLOGY, MEDICAL ILLUSTRATION, AND MEDICAL RECORDS LIBRARY SCIENCE.

MR. GREENE IS A GRADUATE OF THE UNIVERSITY OF GEORGIA WHERE IN 1958, HE RECEIVED THE DEGREE OF BACHELOR OF BUSINESS ADMINISTRATION. IN 1961, HE WAS AWARDED THE DEGREE OF MASTER OF BUSINESS ADMINISTRATION WITH MAJOR WORK IN GENERAL BUSINESS AND A MINOR OF PERSONNEL MANAGEMENT. HE IS A FORMER COMER RESEARCH ASSISTANT IN THE GEORGIA TOURISM AND SOUTHEASTERN RIVER BASINS STUDIES FOR THE BUREAU OF BUSINESS RESEARCH OF THE UNIVERSITY DURING 1961-62.

HE IS A VETERAN OF THREE YEARS' SERVICE IN THE AIR FORCE WHERE HE SERVED AS ADMINISTRATIVE OFFICER, REGISTRAR AND BUSINESS OFFICER OF AN AIR FORCE HOSPITAL, TURNER AFB, ALBANY, GEORGIA.

MR. GREENE IS THE SON OF DR. AND MRS. JAMES EDWARD GREENE, SR. OF ATHENS. DR. GREENE IS CHAIRMAN OF GRADUATE STUDIES IN THE COLLEGE OF EDUCATION AT THE UNIVERSITY OF GEORGIA.

DR. MAHESH WINS RUBIN AWARD

DR. VIRENDRA B. MAHESH, ASSISTANT RESEARCH PROFESSOR OF ENDOCRINOLOGY AT THE MEDICAL COLLEGE OF GEORGIA, HAS BEEN PRESENTED THE RUBIN AWARD. THE AWARD, PRESENTED ANNUALLY BY THE AMERICAN SOCIETY FOR THE STUDY OF STERILITY, WAS CONFERRED AT THE SOCIETY'S ANNUAL MEETING IN NEW YORK, APRIL 19-21.

DR. MAHESH'S MAJOR INTERESTS HAVE BEEN IN THE BROAD AREAS OF MECHANISM OF HORMONE AND BIOSYNTHESIS, AND SECRETION AND METABOLISM OF STEROID HORMONES IN VIVO AND IN VITRO IN NORMAL SUBJECTS AS WELL AS PATIENTS WITH ENDOCRINE ABNORMALITIES. HIS WORK HAS BEEN SUPPORTED BY A GRANT AWARDED BY THE NATIONAL INSTITUTES OF HEALTH IN JUNE, 1960; AND NUMEROUS PAPERS CONCERNING HIS RESEARCH HAVE BEEN PUBLISHED IN THE PAST THREE YEARS.

THE FOLLOWING REPORT, WRITTEN BY DR. MAHESH, BRIEFLY SUMMARIZES HIS FINDINGS AS OF APRIL, 1962, DISCUSSING THEIR SCIENTIFIC SIGNIFICANCE IN THE LIGHT OF THE PRESENT DAY CONCEPT OF THE POLYCYSTIC OVARY SYNDROME.

SECRETION OF ANDROGENS BY THE POLYCYSTIC OVARY AND ITS SIGNIFICANCE

EXTENSIVE CLINICAL AND BIOCHEMICAL RESEARCH HAS BEEN CARRIED OUT DURING THE LAST 3 DECADES IN AN ATTEMPT TO DETERMINE THE SOURCE OF ANDROGENS THAT CAUSE HIRSUTISM IN PATIENTS WITH THE POLYCYSTIC OVARY SYNDROME. THE MOST COMMON APPROACH TO THE PROBLEM HAS BEEN TO STUDY THE IN VITRO BIOSYNTHESIS OF STEROIDS IN THE POLYCYSTIC OVARY BY INCUBATION WITH VARIOUS STEROID PRECURSORS. ALTHOUGH SUCH STUDIES HAVE PROVIDED VALUABLE INFORMATION REGARDING VARIOUS ENZYMATIC ACTIVITIES PRESENT IN THE OVARY, IT IS VERY DIFFICULT TO PROJECT THESE RESULTS TO WHAT TAKES PLACE UNDER PHYSIOLOGICAL ENVIRONMENTS BECAUSE OF A NUMBER OF VARIABLES.

IN ATTEMPTS TO COMPARE STEROID SYNTHESIS IN THE POLYCYSTIC OVARY TO THAT IN THE NORMAL OVARY UNDER PHYSIOLOGICAL CONDITIONS, A COMPREHENSIVE STUDY WAS CARRIED OUT. THIS INVESTIGATION COMPRISED (A) THE DETERMINATION OF VARIOUS URINARY STEROIDS BEFORE AND AFTER ADRENAL SUPPRESSION AND OVARIAN STIMULATION, (B) ESTIMATION OF STEROID CONTENT OF THE OVARY AND OVARIAN VENOUS BLOOD, AND (C) IN VITRO INCUBATION OF VARIOUS STEROID PRECURSORS WITH OVARIAN SLICES.

THE STUDY OF THE STEROID CONTENT OF THE OVARY REVEALED TWO TYPES OF POLYCYSTIC OVARIES. ONE OF THESE TYPES CONTAINED LARGE QUANTITIES OF ANDROSTENEDIONE WHILE THE OTHER CONTAINED DEHYDROEPIANDROSTERONE. BOTH OF THESE COMPOUNDS ARE ANDROGENS. HOWEVER, WITH THE PRESENT STAGE OF KNOWLEDGE ON THE SUBJECT IT WAS NOT POSSIBLE TO DISTINGUISH THESE TWO TYPES FROM EACH OTHER EITHER CLINICALLY OR BY HISTOLOGIC TECHNIQUES. THE LEVELS OF URINARY DEHYDROEPIANDROSTERONE, ANDROSTERONE, AND ETIOCHOLANOLONE WHICH ARE GENERALLY TAKEN AS AN INDEX FOR ANDROGEN SECRETION, REMAIN ELEVATED IN PATIENTS WITH THE POLYCYSTIC OVARY SYNDROME EVEN AFTER ADRENAL SUPPRESSION. THIS IS IN CONTRAST TO A MARKED DEPRESSION NOTED IN THE LEVELS OF THESE URINARY STEROIDS IN NORMAL FEMALES FOLLOWING SUCH TREATMENT. FURTHERMORE, WHEN THE OVARIES WERE STIMULATED WITH EXOGENOUS HUMAN PITUITARY FOLLICLE STIMULATING HORMONE (HP-FSH) WHILE THE ADRENALS WERE KEPT SUPPRESSED WITH DEXAMETHASONE, THERE WAS A MARKED RISE IN THE ABOVE MENTIONED STEROIDS IN THE URINE OF PATIENTS WITH THE STEIN-LEVENTHAL SYNDROME, WHEREAS IN NORMAL SUBJECTS THERE WAS ONLY A VERY SMALL INCREASE. THE ABOVE OBSERVATIONS INDICATE THE SECRETION OF LARGE AMOUNTS OF ANDROGENS BY THE POLYCYSTIC OVARY.

DEHYDROEPIANDROSTERONE OR ANDROSTENEDIONE WAS DETECTED IN THE OVARIAN VENOUS BLOOD OF PATIENTS WITH THE STEIN-LEVENTHAL SYNDROME. THE FORMER STEROID WAS PRESENT IN VENOUS BLOOD FROM OVARIES THAT CONTAINED DEHYDROEPIANDROSTERONE WHILE THE LATTER WAS OBTAINED FROM THE VENOUS BLOOD OF OVARIES CONTAINING ANDROSTENEDIONE. SMALL AMOUNTS OF ANDROGENS WERE DETECTABLE IN NORMAL OVARIAN VENOUS BLOOD ONLY AFTER STIMULATION WITH HUMAN PITUITARY

FSH. THIS OBSERVATION FURTHER CONFIRMS OVARIAN SECRETION OF ANDROGENS IN THE POLYCYSTIC OVARY SYNDROME.

TWO TYPES OF OVARIAN ENZYMATIC ABNORMALITIES WERE INDICATED BY IN VITRO INCUBATION OF OVARIAN SLICES WITH RADIOACTIVE ANDROSTENEDIONE AND DEHYDROEPIANDROSTERONE. THEY ARE (A) FAILURE OF CONVERSION OF ANDROSTENEDIONE INTO ESTROGENS WHICH IS THE NORMAL OVARIAN PATHWAY FOR ESTROGEN SYNTHESIS, AND (B) FAILURE OF THE 3β -OL-DEHYDROGENASE RESULTING IN THE PRODUCTION OF DEHYDROEPIANDROSTERONE INSTEAD OF ESTROGENS.

THESE ENZYME ABNORMALITIES ACTUALLY EXIST UNDER PHYSIOLOGICAL CONDITIONS. THIS WAS SHOWN BY THE VERY LOW ESTROGEN-ANDROGEN RATIO IN THE OVARIAN VENOUS BLOOD OF PATIENTS WITH POLYCYSTIC OVARIES AS COMPARED TO THAT IN NORMAL SUBJECTS. THIS DIFFERENCE WAS ALSO DEMONSTRATED IN A NORMAL SUBJECT AND A PATIENT WITH POLYCYSTIC OVARY SYNDROME AFTER STIMULATION OF THE OVARIES WITH HUMAN PITUITARY FSH. IT WAS FELT, HOWEVER, THAT THE LARGE NUMBER OF OVARIAN FOLLICLES CONTRIBUTING TO ESTROGEN SYNTHESIS IN PATIENTS WITH THE POLYCYSTIC OVARY SYNDROME, THE PRESENCE OF HIGH SUBSTRATE CONCENTRATIONS (ANDROGENS) WITHIN THE FOLLICLES THEMSELVES, AND THE TRANSFORMATION OF ANDROGEN TO ESTROGENS BY EXTRA OVARIAN TISSUES SUCH AS THE LIVER, MAY EXPLAIN THE NORMAL EXCRETION OF ESTROGENS IN THE URINE OF SUCH PATIENTS.

THE QUESTION HAS BEEN RAISED REPEATEDLY WHETHER THE SECRETION OF WEAK ANDROGENS SUCH AS ANDROSTENEDIONE AND DEHYDROEPIANDROSTERONE CAN ACCOUNT FOR THE HIRSUTISM IN THE POLYCYSTIC OVARY SYNDROME. THE DEMONSTRATION OF THE IN VIVO CONVERSION OF ANDROSTENEDIONE AND DEHYDROEPIANDROSTERONE TO TESTOSTERONE, THE MALE TESTICULAR HORMONE, IN NORMAL WOMAN MADE IT VERY TEMPTING TO POSTULATE THAT THE ANDROGENIC ACTIVITY OF THESE WEAK ANDROGENS WAS MEDIATED BY THEIR CONVERSION TO TESTOSTERONE.

MECHANICAL WORKSHOP
AIDS MCG MEDICAL RESEARCH
GEOFFREY E. KING, M. D.

TODAY, VERY LITTLE RESEARCH IS BEING DONE BY MAKING RECORDS ON A SMOKED DRUM WITH A SIMPLE LEVER ATTACHED TO A PREPARATION WITH THREAD AND MODELLING CLAY. SOME MAY REGRET THE PASSING OF THE DAYS WHEN SIMPLE APPARATUS, A LITTLE DEXTERITY AND SOME INGENUITY, TOGETHER WITH A PROBING MIND, WERE THE BASIC TOOLS FOR RESEARCH.

WITH MORE REFINED TECHNIQUES FOR INVESTIGATING LIVING PROCESSES, APPARATUS HAS BECOME MORE AND MORE COMPLEX, AND THE LONE RESEARCHER CAN NOW RARELY RELY SOLELY ON HIS OWN RESOURCES TO COMPLETE A PROJECT. ONE ASPECT OF THIS PROBLEM, THE NEED FOR SPECIALIZED SKILLS IN BUILDING AND MAINTAINING RESEARCH INSTRUMENTS, HAS BEEN OVERCOME AT THE MEDICAL COLLEGE WITH THE PROVISION OF A MECHANICAL WORKSHOP STAFFED BY A SKILLED MACHINIST.

ALTHOUGH THE PERSONNEL IN THE BASIC SCIENCES OF THE MEDICAL COLLEGE HAVE HAD ACCESS TO WORKSHOP FACILITIES FOR MANY YEARS, THE VAST EXPANSION OF CLINICAL RESEARCH GAVE RISE TO AN URGENT NEED FOR A MECHANICAL CENTER IN WHICH NEW RESEARCH EQUIPMENT COULD BE FABRICATED FOR THE CLINICAL DEPARTMENTS, AND WHICH WOULD AUGMENT THE FACILITIES AVAILABLE TO THE BASIC SCIENCE DEPARTMENTS.

LAST YEAR, A FAIRLY EXTENSIVE WORKSHOP WAS SET UP IN THE BASEMENT OF THE TALMADGE HOSPITAL RESEARCH ANNEX. FROM LIMITED AVAILABLE FUNDS, BASIC EQUIPMENT CONSISTING OF A LATHE, DRILL PRESS, AND GRINDER WERE PURCHASED. IN JANUARY, 1962, MR. THOMAS LAMB WAS ENGAGED AS A MACHINIST TO OPERATE THE SHOP. MR. LAMB SERVED HIS APPRENTICESHIP IN A RAILROAD MAINTENANCE SHOP, AND SINCE THEN HAS HAD WIDE EXPERIENCE IN MECHANICAL WORK. HE IS AN INVETERATE TINKERER IN HIS WELL-EQUIPPED HOME WORKSHOP.

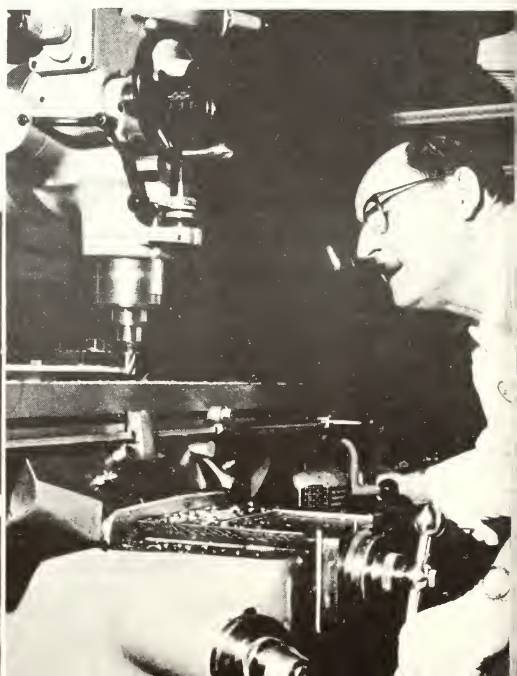

UNDER HIS SUPERVISION, A CAREFUL SELECTION OF MEASUR-

ING EQUIPMENT AND HAND TOOLS, AS WELL AS AN EXTENSIVE STOCK OF RAW MATERIALS RANGING FROM MINUTE STAINLESS STEEL SCREWS TO PLASTIC SHEETS, HAS BEEN ACQUIRED. MACHINERY FOR SHEET METAL WORK, A POLISHING MACHINE, A HIGH PRECISION METAL LATHE, AND A MILLING MACHINE HAVE BEEN ADDED MORE RECENTLY, SOME OF THIS EQUIPMENT HAVING BEEN ACQUIRED AS GOVERNMENT SURPLUS AT A FRACTION OF ITS TRUE COST.

TO LAUNCH A PROJECT IN THE RESEARCH MACHINE SHOP, THE RESEARCHER MUST COMPLETE A WORK REQUISITION, AND AN ESTIMATE OF THE COST OF THE PROJECT MUST BE CLEARED WITH BUDGET OFFICIALS BEFORE THE PROJECT CAN BE CONSIDERED.

THE VERSATILITY OF MR. LAMB IS GIVEN FULL PLAY IN THE TRANSLATION OF AN IDEA ON THE PART OF THE RESEARCH WORKER INTO USABLE APPARATUS MADE OF PLASTIC OR METAL. A PROJECT MAY BEGIN AS A SIMPLE STATEMENT OF A NEED FOR AN APPARATUS TO ACHIEVE A PARTICULAR END, OR MAY BEGIN AS A WORKING DRAWING WITH DETAILED DIMENSIONS. CONSULTATION WITH MR. LAMB MUST OCCUR AT EACH STAGE OF THE CREATION OF A NEW PIECE OF EQUIPMENT. AT FIRST, THE IDEA MUST BE CONCEIVED AS A WORKING ARRANGEMENT, AND SNAGS IN THE TENTATIVE DESIGN ON THE PART OF THE RESEARCHER MUST BE IRONED

MR. LAMB IS SHOWN WITH TWO HIGH PRECISION METAL-WORKING UNITS OF THE WORKSHOP.

OUT. THE FEASIBILITY OF ITS MANUFACTURE WITH EXISTING MACHINE FACILITIES AND AVAILABLE RAW MATERIALS HAS TO BE CONSIDERED, AND NUMEROUS OTHER DETAILS SUCH AS THE POSSIBILITY OF CHEMICAL REACTION WITH REAGENTS, FINISH ON THE APPARATUS, AND SO ON, MUST BE THOUGHT OF BEFORE WORK CAN BEGIN.

AS THE IDEA TAKES SHAPE IN REALITY, THE ULTIMATE DESIGN BECOMES CLEARER AND IT MAY BE POSSIBLE TO USE SIMPLER MACHINE OPERATIONS OR EMPLOY ALTERNATIVE MATERIALS. ON THE OTHER HAND, THERE MAY BE SOME OBJECTION TO THE DESIGN THAT THE RESEARCHER HAD NOT FORESEEN. SO CONSULTATION MUST OCCUR BETWEEN THE RESEARCH WORKER AND THE MACHINIST DURING THE MAKING OF THE APPARATUS TO MUTUALLY AGREE ON DESIGN CHANGES.

IN THE YEAR AND A HALF SINCE THE WORKSHOP OPENED, AN INTERESTING VARIETY OF WORK HAS BEEN UNDERTAKEN. AN IMPRESSIVE LIST OF COMPLETED PROJECTS RANGES FROM A STEEL TANK BUILT TO WITHSTAND TWO ATMOSPHERES PRESSURE TO KEEP MICE AT SIMULATED HIGH ALTITUDES FOR THE PRODUCTION OF EXPERIMENTAL POLYCYTHEMIA, TO A GUARD LESS THAN A HALF-INCH IN LENGTH TO PLACE ON A SCALPEL TO PROTECT BRAIN TISSUE DURING INCISION OF THE DURA.

OTHER WORK HAS INCLUDED MODIFICATIONS TO STEREOTAXIC EQUIPMENT FOR THE DEPARTMENT OF NEUROSURGERY, MECHANICAL CHANGES IN THE HEART-LUNG MACHINE FOR THORACIC SURGERY, CONSTRUCTION OF A RECORDER FOR MAGNETIC-TO-OPTICAL SOUND TRANSFER FOR THE DEPARTMENT OF PSYCHIATRY, MAKING AN ARTIFICIAL KIDNEY FOR EXPERIMENTAL SURGERY, AND A SPECIAL RESTRAINER FOR STING-RAYS UNDERGOING NEUROPHYSIOLOGICAL EXAMINATION FOR THE ANATOMY DEPARTMENT.

ONE UNUSUAL JOB WAS THE CONSTRUCTION OF SPECIAL STAINLESS STEEL PANS TO COLLECT STOOLS FROM PATIENTS IN FOOD INTAKE-OUTPUT IN THE METABOLIC RESEARCH UNIT.

SINCE NONE OF THIS SPECIALIZED APPARATUS CAN BE OBTAINED THROUGH NORMAL COMMERCIAL SOURCES, THE ESTABLISHMENT OF THE RESEARCH WORKSHOP HAS EXTENDED THE FACILITIES AVAILABLE TO OUR RESEARCH WORKERS, AND SHOULD PROVE OF BENEFIT TO ALL DEPARTMENTS OF THE MEDICAL COLLEGE.

MINUTES, FOUNDATION TRUSTEES' MEETING
MAY 6, 1963

TRUSTEES OF THE MEDICAL COLLEGE OF GEORGIA FOUNDATION MET MONDAY, MAY 6, 1963, AT THE CARRIAGE INN, JEKYLL ISLAND, GEORGIA.

THE MEETING WAS CALLED TO ORDER AT 1:00 PM BY THE VICE PRESIDENT, DR. G. LOMBARD KELLY, WHO PRESIDED IN THE ABSENCE OF THE PRESIDENT. PRESENT WERE TRUSTEES KELLY AND SAM E. PATTON. REPRESENTING THE ADVISORY COMMITTEE FROM THE ALUMNI ASSOCIATION WAS DR. W. J. WILLIAMS (WHO WAS AUTHORIZED TO CAST ABSENTEE VOTES IN BEHALF OF TRUSTEE LAMAR B. PEACOCK). ALSO PRESENT WAS DR. HARRY B. O'REAR, PRESIDENT, MEDICAL COLLEGE OF GEORGIA; AND MR. WARREN HITES, EXECUTIVE SECRETARY, MEDICAL COLLEGE OF GEORGIA FOUNDATION.

MINUTES OF THE TRUSTEES' MEETING OF OCTOBER 14, 1962, WERE APPROVED AS READ.

THE FINANCIAL REPORT FOR THE FISCAL YEAR EXTENDING FROM MAY 1, 1962 TO APRIL 30, 1963, WAS REVIEWED AND ACCEPTED. SPECIAL NOTICE WAS TAKEN OF A SETTLEMENT WITH THE GEORGIA REVENUE DEPARTMENT OF A SALES TAX ASSESSMENT. THE SETTLEMENT HAD BEEN AUTHORIZED AT A MEETING OF OCTOBER 14, 1962. IT ALSO WAS NOTED THAT POOR ATTENDANCE AT POSTGRADUATE SHORT COURSES OF THE DEPARTMENT OF CONTINUING EDUCATION DURING THE 1962-1963 ACADEMIC YEAR MAY HAVE RESULTED FROM CONFLICTING MEETINGS, AND THAT THE SCHEDULING OF FUTURE SHORT COURSES AT THE MEDICAL COLLEGE WOULD ATTEMPT TO AVOID SUCH CONFLICTS. DR. KELLY OBSERVED THAT INVESTMENTS AND SAVINGS WERE ACCUMULATING IN THE GENERAL FUND AT A DISAPPOINTINGLY SLOW RATE. HE URGED THAT EXPENDITURES AND COMMITMENTS BE KEPT AT A MINIMUM, AND THAT CONTRIBUTIONS BE ALLOWED TO ACCUMULATE.

DR. O'REAR REPORTED ON THE FACULTY RETREAT HELD AT HILTON HEAD DURING EARLY 1963. HE SAID THE VALUE OF SUCH

MEETINGS HAS BEEN RECOGNIZED BY THE BOARD OF REGENTS, AND THAT FUNDS TO SUPPORT THE 1964 FACULTY RETREAT PROBABLY WOULD BE MADE AVAILABLE FROM INSTITUTIONAL SOURCES. HE EXTENDED AN INVITATION TO THE TRUSTEES TO ATTEND THE NEXT RETREAT, AND DR. PATTON SAID THAT HE AND AT LEAST ONE OTHER TRUSTEE WOULD ATTEMPT TO BE PRESENT.

A LETTER FROM DR. EDGAR R. PUND WAS READ, SUGGESTING THAT THE FOUNDATION CONSIDER A BUILDING PROJECT OR FACULTY CHAIR AS FUTURE PROJECTS. AFTER CONSIDERABLE DISCUSSION, IT WAS MOVED THAT A COMMITTEE OF FIVE MEMBERS (THREE FROM THE ALUMNI ASSOCIATION AND TWO FROM THE FOUNDATION) BE APPOINTED TO STUDY THE COLLEGE'S NEEDS IN A STUDENT UNION. ONE SUGGESTION WAS THAT THE FOUNDATION AND ALUMNI ASSOCIATION CONSIDER FURNISHING AND EQUIPPING SUCH A CENTER.

DR. O'REAR REPORTED THAT THE RECENTLY-COMPLETED MEDICAL COLLEGE LIBRARY WAS OFFICIALLY ACCEPTED BY THE STATE FOR THE SCHOOL IN APRIL. IT IS CONSIDERED LIKELY THAT IT WILL BE PUT INTO SERVICE DURING EARLY SUMMER, 1963. DR. O'REAR EXTENDED THE COLLEGE'S THANKS TO THE FOUNDATION FOR THE SUPPORT GIVEN TO PAY COSTS OF THE LIBRARY CONSULT- AND WHO DESIGNED AND HELPED EXECUTE THE DECOR OF THE NEW BUILDING.

DR. PATTON MOVED THAT THE FOUNDATION ENDORSE A RECOMMENDATION THAT THE ALUMNI ASSOCIATION PROVIDE PLANNING FUNDS FOR AN ALUMNI DAY. THE MOTION WAS PASSED WITH THE PROVISIO THAT IF AN ALUMNI DAY IS SCHEDULED, THE FOUNDATION WILL PROVIDE A SPEAKER.

DR. DEATON

THE ELECTION OF DR. JOHN DEATON OF COLUMBUS TO THE BOARD OF TRUSTEES OF THE MEDICAL COLLEGE OF GEORGIA FOUNDATION WAS CERTIFIED. DR. DEATON SUCCEEDS DR. G. LOMBARD KELLY, WHOSE TERM OF OFFICE EXPIRED MAY 6, 1963.

IN THE ELECTION OF OFFICERS FOR THE 1963-64 FISCAL YEAR, THE FOLLOWING WERE ELECTED: DR. SAM E. PATTON, PRESIDENT; DR. C. MARK WHITEHEAD, VICE-PRESIDENT; AND DR. NEAL F. YEOMANS, SECRETARY-TREASURER.

AN ANNUAL AUDIT OF THE FOUNDATION'S BOOKS WAS APPROVED, AND MR. HAROLD GERARDOT OF THE COMPTROLLER'S OFFICE WAS AUTHORIZED TO PROCEED WITH AN AUDIT AT HIS EARLIEST CONVENIENCE, AT A COST NOT TO EXCEED \$25.00.

DR. O'REAR REQUESTED THAT THE FOUNDATION PROVIDE AN ADDITIONAL \$1,000 TO THE MEDICAL COLLEGE OF GEORGIA STUDENT LOAN FUND. HE REMINDED THE TRUSTEES THAT THIS SUM, TOGETHER WITH MATCHING FUNDS FROM THE NATIONAL DEFENSE EDUCATION ACT (NDEA) WOULD TOTAL \$10,000; THAT SINCE THE FOUNDATION ALREADY HAD GIVEN A PREVIOUS \$1,000 TO THE STUDENT LOAN FUND DURING THIS CALENDAR YEAR, THE FOUNDATION ACTUALLY WOULD CAUSE SOME \$20,000 IN NEW MONEY TO BE AVAILABLE FOR STUDENT LOANS. THE REQUEST FOR THE ADDITIONAL MONEY WAS APPROVED.

MR. HITES THEN REQUESTED THAT A SUM OF APPROXIMATELY \$1,500 BE PROVIDED BY THE FOUNDATION FOR THE MAKING OF AN INSTITUTIONAL MOTION PICTURE. THE FILM, ACCORDING TO THE REQUEST, WOULD BE MADE AVAILABLE FOR SHOWING TO PROFESSIONAL GROUPS, CIVIC CLUBS, AND OTHER ORGANIZATIONS AS PROGRAM MATERIAL. DR. WILLIAMS SUGGESTED THAT THE FILM BE PREPARED FOR PROFESSIONAL GROUPS. IT ALSO WAS RECOMMENDED THAT A GROUP CONSISTING OF DR. O'REAR, DR. WALTER G. RICE (DEAN OF THE SCHOOL OF MEDICINE), DR. DAVID B. MCCORKLE (DIRECTOR OF STUDENT AFFAIRS), MR. HITES, AND OTHER APPROPRIATE MEDICAL COLLEGE PERSONNEL DETERMINE THE CONTENT OF THE FILM. ON A MOTION BY DR. PATTON, THE REQUEST WAS APPROVED.

THERE BEING NO FURTHER BUSINESS, THE MEETING WAS ADJOURNED.

—X—

THE FRONT COVER DESIGN IS A TIME EXPOSURE OF A FREE-SWINGING LIGHT. TO TAKE THE PICTURE, A TRIPOD-MOUNTED CAMERA WAS POINTED UPWARD. AFTER THE SWINGING LIGHT HAD BEEN PUT IN MOTION, THE CAMERA SHUTTER WAS OPENED FOR APPROXIMATELY 45 SECONDS. DISTANCE FROM CAMERA TO SHUTTER CAN VARY WIDELY, BUT IN THIS INSTANCE IT WAS APPROXIMATELY FOUR FEET.

I have examined the books and records of the Medical College of Georgia Foundation, Inc. for the fiscal year ended April 30, 1963, and without making a detailed audit of all transactions, have tested the accounting records of the Foundation to the extent deemed appropriate.

In my opinion, the financial condition of the Medical College of Georgia Foundation, Inc. is presented fairly in the Annual Report for the period May 1, 1962 to April 30, 1963.
